Job Title: Assembly Technician
Company: Granroth - Engineering Excellence in Special Purpose Production Machinery
Location: Port Elizabeth, South Africa

Are you passionate about precision engineering and thrive in a dynamic, fast-paced environment? Join our team at Granroth, a leading engineering company specializing in the design and production of special purpose machinery for the automotive sector. We are seeking a highly skilled and motivated Assembly Technician to contribute to our innovative projects.

RESPONSIBILITIES

1. Machinery Assembly and Testing:

- Assemble and test special purpose production machinery according to engineering drawings and specifications.
- Proficient in understanding and working with mechanical, hydraulic, pneumatic, and electrical systems.

2. Project Execution:

- Ensure timely completion of assembly projects within given timelines.
- Collaborate with the engineering team to address any design or assembly issues that may arise during the project.

3. Installation and Commissioning:

- Travel to customer sites for machinery installation and commissioning.
- Provide on-site technical support and troubleshooting to ensure seamless integration of our machinery into the customer's production line.

4. Quality Control:

- Perform thorough quality checks during assembly and testing processes to ensure the highest standards are met.
- Implement corrective actions as necessary to resolve any issues identified.

5. Documentation:

- Maintain accurate records of assembly processes, test results, and any modifications made during the project.
- Provide detailed documentation for future reference and continuous improvement.

QUALIFICATION REQUIREMENTS

1. Education:

- Matric certificate or equivalent, plus
- National diploma in mechanical or mechatronic engineering, or
- Trade certificate in either: Fitting & Turning, Toolmaking, Millwright or equivalent relevant trade.

2. Experience:

- Minimum of 2 years of experience in maintaining or assembling machinery, preferably in the automotive sector.

3. Technical Skills:

- Proficient in working with mechanical, hydraulic, pneumatic, and electrical systems.
- Strong troubleshooting skills for identifying and resolving technical issues.

4. Communication:

- Excellent communication skills, both written and verbal.
- Ability to collaborate effectively with cross-functional teams and communicate technical information to customers.

5. Flexibility:

- Willingness to travel for on-site installations and commissioning as required.

Benefits / Remuneration

- Competitive salary.
- Professional development opportunities.

If you are a highly skilled Assembly Technician with a passion for precision engineering, we invite you to join our team at Granroth. **Apply now by sending your resume and cover letter to info@Granroth.co.za.**

Granroth is an equal opportunity employer. We encourage applicants from all backgrounds and experiences to apply.
